Dear NNHSC Patient:

You and members of your family have used one of the clinics of the Near North Health Service Corporation as your medical home. A medical home is the place you go first when you don't feel well. This is where you see your doctor, get your exams, medications and immunizations.

Our clinics must take part in **Illinois Health Connect (IHC)**, an important and new health care program of the Illinois Department of Healthcare and Family Services. In **Illinois Health Connect** you must continue to use us as your medical home.

Enclosed is information on **Illinois Health Connect (IHC)**. This information will help you understand,

- Why you need a medical home,
- Who can join Illinois Health Connect, and
- How to enroll in Illinois Health Connect.

Near North Health Service Corporation is part of **Illinois Health Connect (IHC)**. This means you can continue to use one of our clinics (listed below) as your medical home. To find out more about **Illinois Health Connect (IHC)**, please come by one of our clinics or call the registration desk at one of the numbers listed above.

Thank you for allowing Near North Health Service Corporation to continue to serve you and your family.

Berneice Mills-Thomas
Executive Director
